

Hydraulic Wheel Dolly

Model: ZWD-1500
Capacity: 3/4 tons
Weight: 271lbs

Usage

Use this dolly to remove, transport and replace tire assembly without strain or struggle.

Special Features

1. Full swivel caster wheels provide smooth steering for easy positioning.
2. The four ton bottle jack provides smooth and rapid lift capacity.
3. The push bar is adjustable providing unobstructed access to the hub area.
4. Features an 8" travel adjustment on rear caster wheel which matches lifting arms with spindle angle.
5. Two 8 foot chains are provided to hold the wheel assembly in place during removal and transport.
